Education

**Rutgers University,
New Brunswick, NJ**
School of Biological and
Environmental Sciences
BS – Meteorology Major

Key Skills

- Advanced knowledge of WSI & Baron weather graphics
 - Staying relevant in a rapidly changing industry by differentiating forecasts from weather apps by giving viewers what they can't get on their phones
- Localizing climate change

Work Experience

November 2018 - Present

Broadcast Meteorologist, KXAN-TV & THE CW, Austin, TX

- Lead weather anchor for launch of 7-9 a.m. nonstop weather and traffic show on CW Austin
- Forecast, produce, and deliver entertaining and accurate weather hits
- Key focus on localizing climate change's impacts through daily storytelling
- Research, shoot and write daily weather/climate stories
- Main Traffic anchor fill-in; years of experience with graphic building
- Predicted a tornado before the National Weather Service issued a warning

Work Experience

August 2015 – July 2018

Broadcast Meteorologist, KIII TV 3 News Corpus Christi, TX

- 16-hour continuous studio and field coverage during Hurricane Harvey
- Wall-to-wall severe weather coverage as well as Facebook Live severe WX updates
- Prepared sweeps pieces/hurricane specials to air in timely manner
- Emceed various community events from school talks to nonprofits

Internship

Spring 2015

Internship, News 12 Cable News, Edison, NJ

- Forecasted and produced WSI graphics for Chief Meteorologist
- Emceed various community events from school talks to nonprofits

Mentorship Program
